

SULIMAN

Software Engineer | Digital Marketing Associate

Islamabad, Pakistan | +92 335 9638702 | sulimanofficial127@gmail.com | linkedin.com/in/suliman-85638a2b9

PROFESSIONAL SUMMARY

Software Engineer with a background in app development, web frontend development, and UI/UX design, plus experience in digital banking. This technical foundation gives me a strong understanding of digital platforms, which I apply directly to marketing and creative work. Currently working in digital marketing, focusing on social media marketing, content strategy, and content writing to help brands grow with clarity and consistency.

WORK EXPERIENCE

Vamonos Apparels | Digital Marketing Associate

January 2026 – Present

- Manage social media marketing strategy, including creating content, posting, and tracking performance to grow audience engagement and brand awareness.
- Analyze social media metrics like reach, engagement, and follower growth to improve content strategy over time.

Bank of Khyber | Digital Banking Technical Officer

November 2024 – August 2025

- Promoted from Digital Banking Assistant to Technical Officer within 6 months based on consistent high performance.
- Provided technical support and troubleshooting for digital banking services, improving customer satisfaction and resolution times.
- Managed ATM operations, maintenance, and technical troubleshooting to ensure high uptime and service reliability.
- Assisted customers in onboarding to digital banking platforms, improving adoption and digital engagement.

NEP-NICS | CTO and Lead Developer | UI/UX Designer

October 2023 – April 2024

- Designed complete application interface including dashboard screens, user flows, wireframes, and overall UI/UX experience using Figma.
- Led development of Smart Bin, an IoT-based mobile application for real-time waste bin monitoring using Flutter and Firebase.
- Managed and coordinated the development team, overseeing project architecture, sprint planning, and on-time delivery.

Final Year Project — Dhobi Online | Mobile App Developer | UI/UX Designer

November 2023 – June 2024

- Designed all application screens in Figma including wireframes, user flows, and complete UI/UX look and feel.
- Developed a full-featured laundry service mobile application connecting customers, service providers, and delivery riders using Flutter and Firebase.
- Implemented order management, real-time tracking, and delivery coordination features.
- Used GitHub for version control, team collaboration, and agile project management.
